

KING & COUNTRY'S

WORLD OF DICKENS

CHARLES DICKENS (1812-1870) was the most popular author of his day and the most published writer of any after Shakespeare!

In his novels Dickens portrayed the very heart and

soul of mid-Victorian England. He created a body of work whose appeal has endured till the present and is among the most loved of all time.

"Mr. Pickwick" from *The Pickwick Papers*.

INSPIRATION

KING & COUNTRY has long been inspired by his books to create a special COLLECTOR'S EDITION of miniature figures based on many of his most memorable characters... As well as others representing the world Dickens himself lived and worked in.

ABOUT THE FIGURES

Expertly carved and delicately cast in *fine white*

metal, each figure is individually hand-painted by our own team of skilled artists in a realistic *mat paint finish* to a connoisseur standard.

Great care is also taken to render certain items which would normally be polished (*boots and belts for instance*) in high gloss.

SETTING THE SCENE

In addition, to provide an ideal "backdrop" for any Dickens scene K&C has also produced two scale replica facades of typical *Dickensian* buildings.

Along with these we have some period "street furniture" such as a *Corner Fountain*, a *Royal Mail Post Box* and even a pair of *lamp posts*. Also hand-cast and hand-painted these sturdy "street" accessories bring vividly to life the world of *Charles Dickens* and his novels.

Now this "World of Dickens" is yours to collect, enjoy and share with family and friends alike. *Begin your collection today!*
